WORK EXPERIENCE

Tech Savvy Team, Queens, NY

June 2024 - Present

Field Technician

- Assisted in delivering end-user support across diverse Windows environments, diagnosing and resolving hardware/software issues to minimize downtime and maintain business continuity.
- Collaborated with senior engineers on escalated issues, gaining hands-on exposure to troubleshooting in Azure, Microsoft 365, Active Directory, and Exchange.
- Implemented and documented IT best practices for incident response and endpoint setup, improving efficiency for future deployments.
- Helped manage IT inventory and logistics, implementing organizational tools and preparing resources ahead of time to streamline team operations.

Lockwood Library at the University at Buffalo, Buffalo, NY

Oct 2022 - May 2025

Student Assistant Librarian

- Maintained accurate library system records to support smooth backend operations.
- Organized large volumes of materials, ensuring accessibility for 1000+ patrons weekly.

American Multi-Cinema (AMC), Manhattan, NY

June 2022 - Aug 2022

Crew Team Member

- Delivered enthusiastic customer service experiences to guests at the concession stands, fostering positive interaction and satisfaction.

PROJECTS & LEADERSHIP EXPERIENCE

FDA Recall Data Parser (C)

May 2025

- Built a program to parse and filter FDA recall XML files with interactive commands (filter, reset, save, count), enabling efficient data analysis and strengthening systems programming, data handling, and debugging skills.

ARM Assembly Pong Game

April 2025

- Developed a Pong game on a microcontroller with paddle/ball movement, collision detection, and timing logic. Gained experience optimizing low-level code and collaborating with a partner on design and testing.

UB NetDef Internal Lockdown Cybersecurity Competition

Sept 2022

- Collaborated with teammates to defend systems against simulated intrusions, gaining experience in firewalls, IP configurations, and security protocols for Windows and Linux.
- Strengthened problem-solving, adaptability, and teamwork in a high-pressure technical environment.

UB Hacking Fall 2024 - Project Manager

Nov 2024

- Led a team to build a chatbot recommending songs via Spotify's API, applying Python, JavaScript, HTML, and CSS while strengthening leadership and full-stack web app development skills.

COVID-19 2021 Statistics Website

Nov 2021 - Dec 2021

- Built a web app with interactive graphs using CDC COVID-19 data, allowing user-customized insights on vaccination trends.

SKILLS

Programming Languages: Python, C, Assembly, Scala, OCaml, Verilog, PHP

Web Development: JavaScript, HTML/CSS, ReactJS

Technologies: Windows OS, Linux OS, GitHub, PowerShell, FreeBSD

Languages: Cantonese (Conversational)

Tools: Microsoft Office, Google Suite

EDUCATION

SUNY University at Buffalo, School of Engineering and Applied Sciences

May 2025

Bachelor of Science, Computer Science (GPA: 3.6)

- Relevant Courses: Data Structures, Web Applications, Modern Algorithms, Artificial Intelligence, Systems Administration
- Honors: Magna Cum Laude, Dean's List
